

ROPE ACCESS

Overview

Bright Group

We are an Australian-owned specialist provider of multi-disciplinary trade services supporting shutdowns, maintenance, projects, and ongoing operations. We prioritise data-driven decision-making, responsive execution, and the continuous development of our people.

Since our founding in 2007, we have grown from a small team focused on access services into a comprehensive, end-to-end service provider. Today, we offer a wide range of capabilities, including scaffolding, rope access, mechanical, electrical, design, and training.

What sets us apart is our ability to manage projects of any size or complexity while maintaining the highest standards of quality, safety, and reliability. Our clients value us not just for completing the work, but for delivering it right, every time.

The way we work

Safety

Safety is at the core of who we are. The health, safety, and well-being of our people, partners, and communities guide every decision we make. We foster a culture of accountability, integrity, and respect – ensuring everyone goes home safe, every day.

Diversity & Inclusion

Diversity strengthens our teams and drives innovation. We're committed to an inclusive workplace that values all backgrounds and perspectives, promotes equal opportunity, and builds stronger connections with our people, clients, and communities.

Sustainability

We're committed to sustainability and responsible corporate citizenship. By integrating Environmental, Social, and Governance (ESG) principles across our operations, we minimise environmental impact, support our communities, and drive innovation for a more sustainable future.

Approach

We are agile and collaborative. Our experienced leaders make informed decisions with clarity and efficiency. Supported by extensive internal resources, specialised equipment, and a national network, we mobilise the right support and adapt seamlessly to the changing needs of the work.

THINK CHANGE, THINK BRIGHT

Rope Access Service

IRATA-Certified Rope Access Services

Rope access has been a core capability for us from day one – designed for complex environments where safety, efficiency, and cost control are essential. Our IRATA-certified technicians deliver high-access maintenance, inspections, and repairs without the need for scaffolding or heavy equipment, reducing downtime and disruption while meeting the highest safety standards.

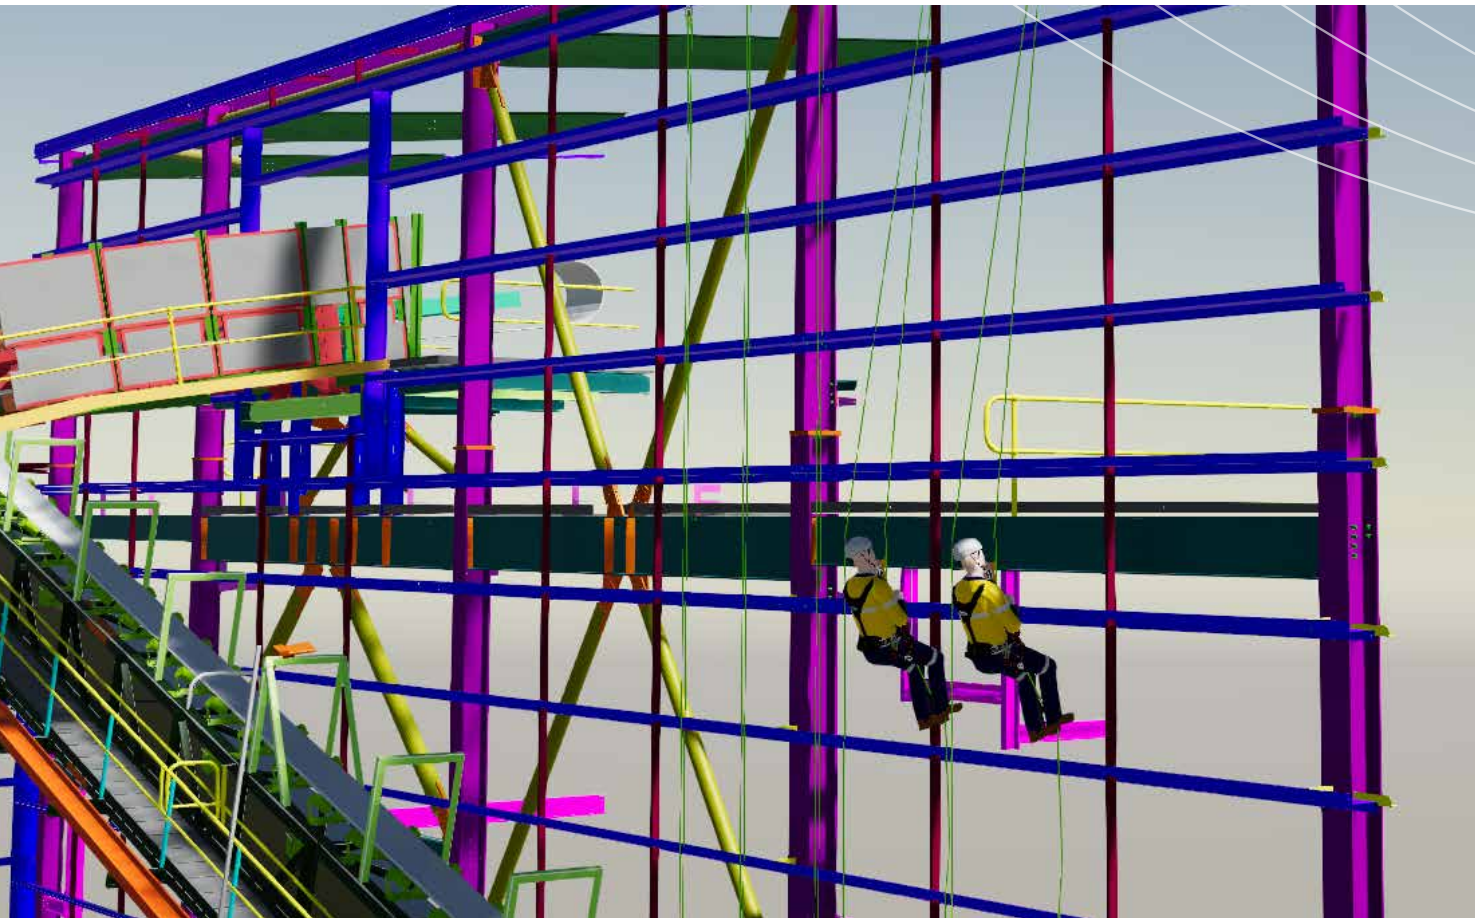

IRATA Certification

As an accredited IRATA member, we follow global best practice in training, safety, and rope access delivery – ensuring every task is performed with professionalism, precision, and reliability.

Rope Access Capabilities:

Mechanical and Electrical Services
Welding and cutting
Conveyor Maintenance
Complex Rigging
Dropped Object Prevention
Working at Heights Setup
Fixed Plant Construction / Deconstruction
Chute / Surge Bin / Car Dumper / TLO Maintenance
Rescue Services / CSE Management
Blasting, Painting & Cleaning
Structural Integrity Inspections & Remediation

**Access made efficient. Work done safely.
Outcomes delivered with confidence.**

Specialised Rope Access & Rigging Solutions

Safe Setup & Systems for Working at Heights and Confined Spaces

We ensure all works are supported by safe, compliant systems through the design and installation of working at heights equipment and anchor points. Our teams also manage confined space entry (CSE) operations and provide rescue capabilities, delivering the controlled environments required for high-risk tasks and ensuring work is carried out efficiently and safely.

Rope Access Expertise for Hard-to-Reach Locations

Using our specialist rope access capability, we can reach difficult or restricted areas that other access methods cannot. This allows us to perform inspections, maintenance, and technical tasks with minimal disruption while upholding industry best practice and ensuring reliable, high-quality outcomes across all project types.

Rope Access Expertise That Delivers Results

We provide end-to-end rope access solutions designed to improve safety, reduce costs, and enable efficient execution in hard-to-reach environments.

Our capabilities span:

Custom rope system design – engineered access solutions planned by our Perth-based rope design team

Complex rigging and lifting – precision placement of equipment in restricted or high-risk areas

Maintenance and repair works – routine, corrective, and emergency tasks performed without scaffolding or cranes

High-access inspections – visual, structural, and technical inspections in areas inaccessible by traditional methods

Confined space & rescue services – fully managed CSE entry, standby rescue teams, and controlled high-risk environments installation through to commissioning

Each service is backed by our rigorous safety systems, skilled IRATA technicians, and commitment to delivering efficient, disruption-free access solutions.

Our integrated approach brings together rope specialists, planners, and project personnel to provide flexible, scalable access support – whether embedded within existing project frameworks or delivered as a standalone service. By combining technical expertise with proven access methodologies, we deliver outcomes that improve productivity, reduce downtime, and keep projects moving.

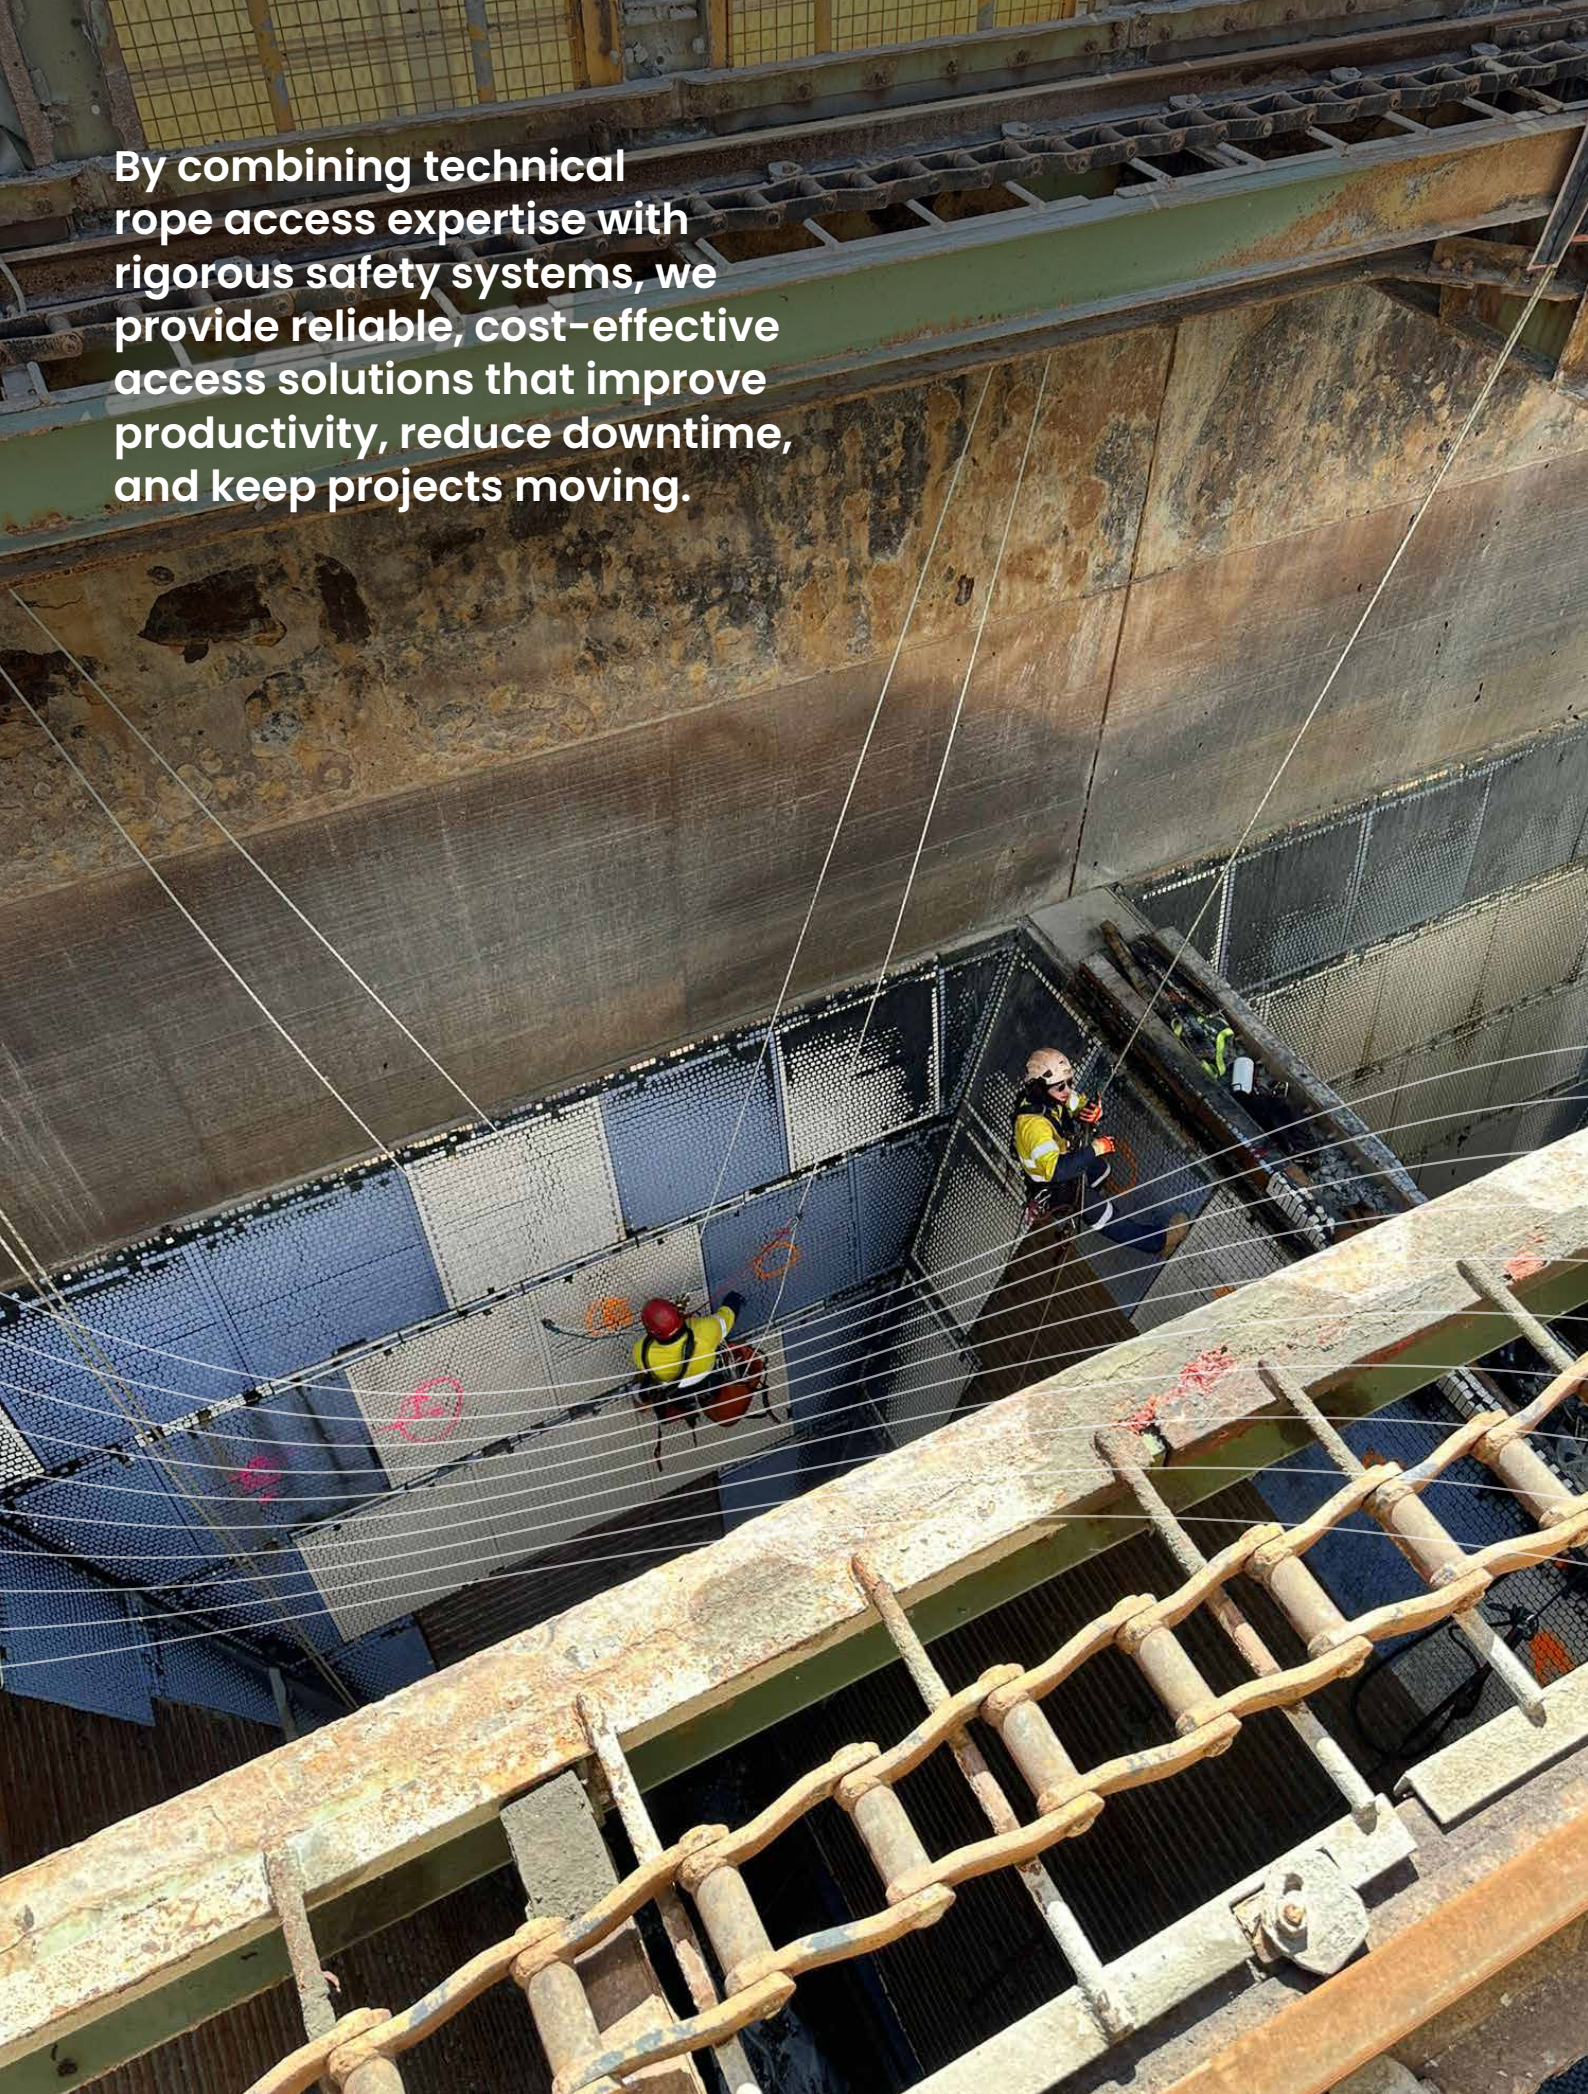

If you're seeking a dependable partner to support your rope access requirements, we're ready to bring capability, safety, and performance to every project we undertake.

Your access is our trusted expertise.
