

STRUCTURAL MECHANICAL & PIPING

Overview

Bright Group

We are an Australian-owned specialist provider of multi-disciplinary trade services supporting shutdowns, maintenance, projects, and ongoing operations. We prioritise data-driven decision-making, responsive execution, and the continuous development of our people.

Since our founding in 2007, we have grown from a small team focused on access services into a comprehensive, end-to-end service provider. Today, we offer a wide range of capabilities, including scaffolding, rope access, mechanical, electrical, design, and training.

What sets us apart is our ability to manage projects of any size or complexity while maintaining the highest standards of quality, safety, and reliability. Our clients value us not just for completing the work, but for delivering it right, every time.

Consortium of Companies:

Capabilities:

- Project Delivery
- Maintenance
- Operations & Shutdowns
- Planning
- Underground

The way we work

Safety

Safety is at the core of who we are. The health, safety, and well-being of our people, partners, and communities guide every decision we make. We foster a culture of accountability, integrity, and respect – ensuring everyone goes home safe, every day.

Diversity & Inclusion

Diversity strengthens our teams and drives innovation. We're committed to an inclusive workplace that values all backgrounds and perspectives, promotes equal opportunity, and builds stronger connections with our people, clients, and communities.

Sustainability

We're committed to sustainability and responsible corporate citizenship. By integrating Environmental, Social, and Governance (ESG) principles across our operations, we minimise environmental impact, support our communities, and drive innovation for a more sustainable future.

Approach

We are agile and collaborative. Our experienced leaders make informed decisions with clarity and efficiency. Supported by extensive internal resources, specialised equipment, and a national network, we mobilise the right support and adapt seamlessly to the changing needs of the work.

THINK CHANGE, THINK BRIGHT

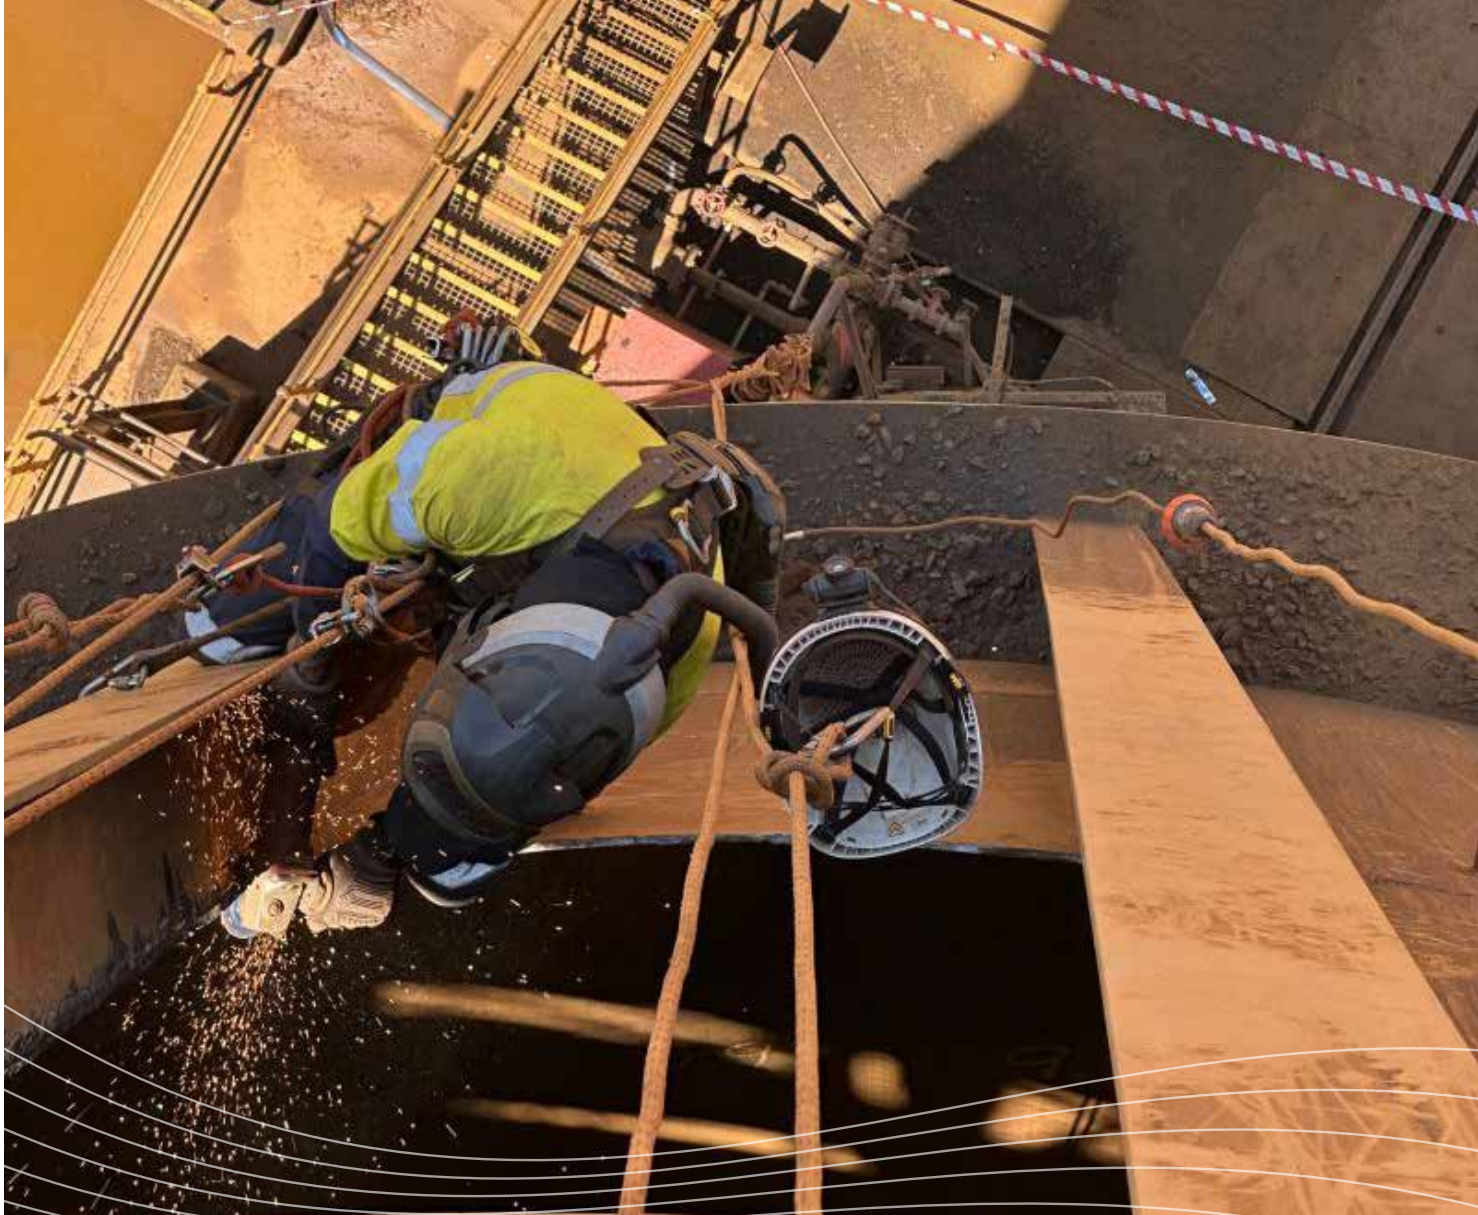

Structural Mechanical Piping (SMP) Services

We specialise in delivering a comprehensive range of Structural Mechanical Piping (SMP) services, providing integrated solutions from design through to final assembly. Offering full mechanical services, including material procurement, fabrication, and installation, we ensure that our clients’ projects are managed from start to finish at the highest standard. With a strong focus on safety, operational efficiency, and cost-effectiveness, we work closely with our clients to deliver solutions that are on time, within budget, and meet the highest industry standards.

Our team of experts is equipped with the technical knowledge and hands-on experience necessary to tackle the most complex mechanical challenges. Whether performing routine maintenance, shutdowns, or overhauls, we ensure every task is executed with precision and attention to detail, all while maintaining a strong commitment to safety and quality control.

Our Services

Mechanical Capabilities:
Mechanical Services / Shutdown Maintenance and Project Execution
Coded Welding
Plasma and Oxy / Acet Cutting / Thermal Lancing / Arc Air-Gouging
Liner Replacements and Upgrades
Vibrating Screen Maintenance
Hard Skirt Maintenance
Chute Maintenance
Scraper Blade Change Outs and Refurbishments
Conveyor Pulley Replacements and Alignment
Conveyor Maintenance (including Hard Skirts, Roller Frames, and Rollers)
Pipe-work Fabrication and Installation
Structural Integrity Assessments and Remediation Work
NDT (Non-Destructive Testing - UT, MPI, DPI)
Industrial Blast and Painting
Design and Engineering

End-to-End SMP Delivery

Structural, Mechanical & Piping Capability

We deliver integrated Structural, Mechanical and Piping solutions across Australia’s resource, industrial, and energy sectors. Our SMP teams work closely with client operations to plan, coordinate, and execute works safely and efficiently across shutdowns, maintenance programs, and major construction projects. Supported by our in-house engineering, design, and fabrication capabilities, we provide tailored solutions that meet site-specific requirements while maintaining the highest standards of safety, quality, and performance.

Precision-Led Execution

Central to our SMP delivery is disciplined planning and controlled execution. We align materials, labour, and work fronts through detailed sequencing and proactive coordination, ensuring activities progress without disruption. From coded welding and pipework fabrication to mechanical installation, conveyor maintenance, and structural works, we manage logistics, resources, and timing to minimise risk and downtime. Backed by proven systems and a culture of continuous improvement, we deliver reliable SMP outcomes that keep projects moving safely and on schedule.

Total SMP Solutions

We deliver reliable, self-performed fixed plant and mechanical service solutions across metropolitan, regional, and remote operations throughout Australia.

Our areas of expertise include:

Fixed plant maintenance

Mechanical servicing and shutdown support

Structural welding, fabrication, and heavy equipment repairs

Maintenance and overhauls

End-to-end SMP delivery, from fabrication and installation through to commissioning

Our in-house mechanical capability enables safe, efficient, and cost-effective service delivery. By self-performing key mechanical, structural, and piping works, we maintain control over quality, scheduling, and safety outcomes. This integrated approach reduces interfaces, minimises downtime, and ensures consistent performance across maintenance programs, shutdowns, and targeted repair scopes.

If you are planning an upcoming maintenance campaign, shutdown, or mechanical upgrade, get in touch to discuss how we can support your operation with reliable, efficient solutions.

Reliable. Efficient. Mechanical
