

SCAFFOLDING

Overview

Bright Group

We are an Australian-owned specialist provider of multi-disciplinary trade services supporting shutdowns, maintenance, projects, and ongoing operations. We prioritise data-driven decision-making, responsive execution, and the continuous development of our people.

Since our founding in 2007, we have grown from a small team focused on access services into a comprehensive, end-to-end service provider. Today, we offer a wide range of capabilities, including scaffolding, rope access, mechanical, electrical, design, and training.

What sets us apart is our ability to manage projects of any size or complexity while maintaining the highest standards of quality, safety, and reliability. Our clients value us not just for completing the work, but for delivering it right, every time.

Consortium of Companies:

Capabilities:

- Project Delivery
- Maintenance
- Operations & Shutdowns
- Planning
- Underground
- Design

The way we work

Safety

Safety is at the core of who we are. The health, safety, and well-being of our people, partners, and communities guide every decision we make. We foster a culture of accountability, integrity, and respect – ensuring everyone goes home safe, every day.

Diversity & Inclusion

Diversity strengthens our teams and drives innovation. We're committed to an inclusive workplace that values all backgrounds and perspectives, promotes equal opportunity, and builds stronger connections with our people, clients, and communities.

Sustainability

We're committed to sustainability and responsible corporate citizenship. By integrating Environmental, Social, and Governance (ESG) principles across our operations, we minimise environmental impact, support our communities, and drive innovation for a more sustainable future.

Approach

We are agile and collaborative. Our experienced leaders make informed decisions with clarity and efficiency. Supported by extensive internal resources, specialised equipment, and a national network, we mobilise the right support and adapt seamlessly to the changing needs of the work.

THINK CHANGE, THINK BRIGHT

Scaffolding Services

Delivering safe, efficient access where it matters most.

Every project comes with its own challenges — from tight shutdown windows to complex maintenance scopes and large-scale builds. We deliver fully integrated scaffolding services designed to meet these demands with precision, innovation, and absolute commitment to safety.

Backed by an experienced team and our in-house design capability, we develop tailored access systems that overcome difficult environments, support efficient workflows, and keep operations moving. Our focus on safety, cost-effectiveness, and streamlined delivery ensures every job runs smoothly, with minimal disruption and maximum productivity.

- Our scaffolding capabilities include:**
- Erection, alteration, and dismantling of scaffolding in accordance with AS/NZ 1576 and 4576
 - Custom scaffolding solutions engineered for complex challenges
 - Installation of hoists and mono-rail systems
 - Installation of static lines and alternative anchoring systems
 - Engineering and CAD design services
 - Design-led innovations such as crane-in scaffolds and engineered access systems
 - Specialised ‘Outalay’ software for tracking and standardisation

Scaffolding Expertise & Delivery

Safe, efficient access for every environment

At Bright Group we deliver specialised scaffolding services to Australia’s leading resource, industrial, and commercial operations. Our teams bring technical capability, disciplined planning, and a safety-first mindset to every project — from shutdowns and maintenance tasks to large-scale construction requirements. With in-house engineering and design support, we create access solutions that meet the highest standards of safety, quality, and efficiency.

From scaffold construction and engineered access systems to hoist installation and project-wide material management, every solution is tailored to the unique conditions of the site and the needs of the operation.

Planned for performance

Effective scaffolding requires foresight, precision, and control at every stage. We pre-plan materials, pre-build components where possible, and coordinate movements to streamline delivery and keep operations running without disruption. By managing logistics, access, and timing with care, we minimise risk, reduce downtime, and support safe, seamless project progression.

Backed by proven systems, design innovation, and a culture of continuous improvement, we deliver scaffolding services that enhance productivity and keep your project on schedule.

Safe. Capable. Constructive.

Scaffolding Delivery, Done Right

Delivering scaffolding services across Australia's major resource, industrial, and construction operations, our approach centres on precision planning, disciplined execution, and uncompromising safety. From early design and engineering through to mobilisation, installation, and close-out, we ensure every phase is managed with clarity and control.

Our expertise includes:

Custom-engineered access and scaffolding solutions

Detailed logistics, mobilisation, and material management

Installation of hoists, mono-rails, static lines, and anchoring systems

Full engineering, CAD design, and innovation capability

Skill development, system training, and specialist software support for tracking and standardisation

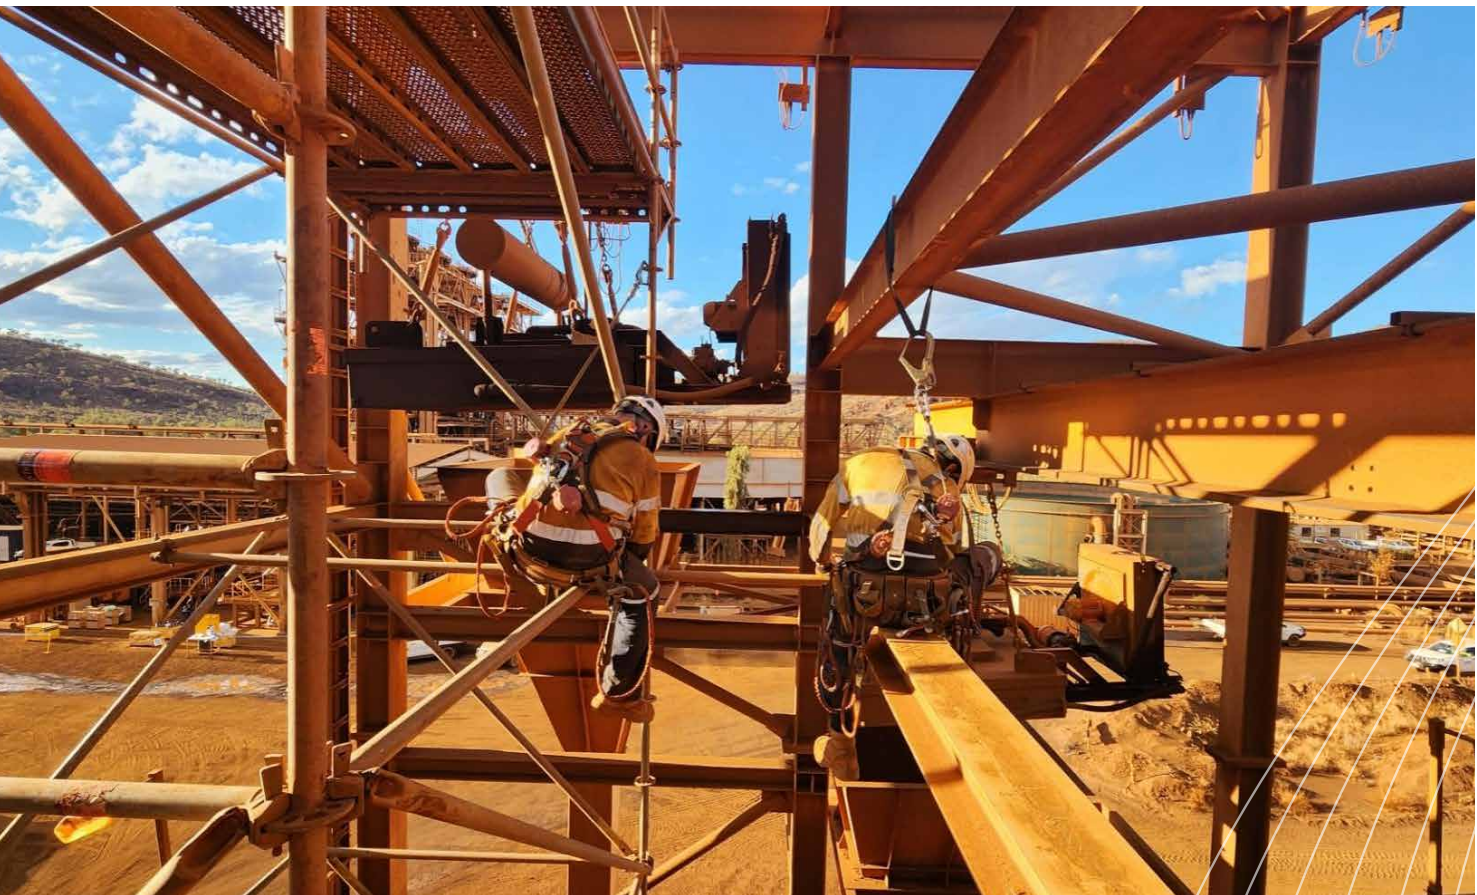

With full in-house capability, we manage all stages of delivery under one roof. This integrated model provides greater visibility, fewer interfaces, and consistent outcomes — whether we're supporting a large-scale program or delivering a targeted access solution for a single task.

If you're planning your next shutdown, maintenance campaign, or project build, we're ready to support safe, efficient scaffolding that keeps operations moving.

Built for Performance. Delivered with Precision.

Your project. Our expertise. One trusted partner.
